**State of the Territory Address:** 

Gov. Lolo Moliga says local economy on "shaky ground"

by Fili Sagapolutele Samoa News Correspondent

ased on preliminary financial information, Gov. Lolo Matalasi Moliga says the American Samoa Government closed out revenue collections have increased every year in the last four year's of the Lolo and Lemanu Administration.

PAGO PAGO, AMERICAN SAMOA

The governor made the revelation yesterday during his State of the Territory Address, which was summarized in Samoan.

The Address was not delivered in English, instead a sures to reduce overall governseparate 83-page Comprehensive Report in English was ment spending. handed out to lawmakers and others. The report looks at the last 4 years of the Administration, which took office istration was able to reduce the M in January 2013.

The governor informed lawmakers that 2016 was a down ASG's legal liabilities and year full of challenges and this is always the case, when obligations by \$5.1 million and it's an election year for a governor and lieutenant governor, because of the many preparations involved going into the next four-year term for the government.

#### **FINANCIAL STATUS**

2016, the governor said, was a time when it was difficult to meet financial obligations, but with the Fono and the Executive branches working hand-in-hand, many of these issues were addressed.

In addition, because of their working together, Lolo said preliminary financial information from Treasury and auditors indicates that ASG closed FY 2016 — which ended Sept. 30, 2016 — with a \$1.2 million surplus.

In the Comprehensive Report, the governor said fiscal year 2016 in the black and noted that that in 2013, ASG inherited a \$7.7 million deficit and an outstanding debt of \$59.6 million, including legal obligations totaling \$11 million. To settle the growing deficit, Lolo said the administration created and enforced cost containment mea-

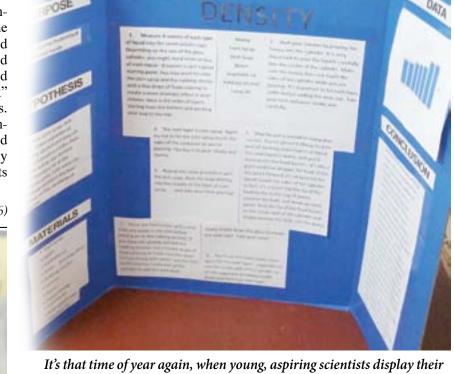

> By the end of 2013, the admindeficit by \$4.8 million and paid closed FY 2013 in the "black" for the first time in over 30 years.

> However, Lolo said government spending swiftly soared with the implementation of many new infrastructure developments and program priorities in 2014.

# **Territorial Bank still** working on getting bank routing number

by Fili Sagapolutele Samoa News Correspondent

Territorial Bank of American Samoa is working hard towards securing a bank routing number, while testing the bank's debit card was being completed, says TBAS chief executive officer, Phil Ware, who confirmed that the ASG entity had last month issued loans under the Christmas loan program.

TBAS officially opened Oct. 3, 2016 at the former location of the Bank of Hawaii at the Centennial Building in Utulei and local residents started opening savings and checking accounts. Customers interested in the debit cards had also to operate in a very controlled manner. To that ordered them.

However, Samoa News has received concerns from some customers that they are still waiting for their checking account checkbook as well as the debit card. Customers say that they were told that there was a delay in getting the check order book in and customers will be contacted, to come in to goals it has established." look at it when it is received to order their checks.

Bank customers have also not received their Master debit card; and were told by the bank ASG entity, and board members told senators that there is a bit of delay. Samoa News was also given the same information when TBAS was contacted in the latter part of November and again last month.

Samoa News learned last month that one of the main reasons for the delay with the checks for checking accounts, as well as debit cards, is that TBAS has not yet received a bank-routing number, which is from the Federal Reserve, the central banking system of the United States.

Responding to Samoa News questions regarding the issue, Ware first pointed out that TBAS opened in October and began accepting deposits from consumers, and these accounts are associated with a debit card.

"As of this writing the final testing of these cards is being completed. It is anticipated customers will be receiving these cards very soon," Ware said via email last Friday afternoon.

For checking accounts, Ware explained that currently, customer checks are dependent on the routing number situation and TBAS is working hard on this matter.

"We are confident that from the progress made this number, together with the corresponding Federal Reserve account, checks will be available to customers very shortly," he pointed out.

Early last month, many employees — in both public and private sector — were able to obtain loans from the bank.

Asked about the loan programs, Ware said TBAS began with a Christmas promotion, which was "very successful" and these loans were unsecured and ranged from \$300 to \$2,500. Additional loan programs will be offered in 2017, he said.

"In order for TBAS to be successful, it has extent, we have a strategic plan for the introduction and continuance of products and services,' Ware explained. "This will proceed in a prescribed manner, based on both planned activities and the current logistic environment. By operating in this prudent manner, TBAS will be able to achieve the

TBAS is governed by a seven-member board of the Territorial Bancorp Holding Company, an last September examples of loan programs to be offered, would be small loans, which are the "fa'alavelave loans" of \$500 up to \$2,500; and personal loans of over \$2,500 up to \$10,000.

Business loans would come later, they told the Senate, but these types of loans are usually tied to the prime rate and also depend on the individual business. Additionally, vehicle loans would also be available later.

#### **BACKGROUND**

A bank routing number or routing transit number (RTN) is a nine-digit number used to identify a financial institution in a transaction, with the most common types of transactions being Automatic Clearing House (ACH) and wire transfers.

The ACH — is an electronic network for financial transactions in the United States. ACH processes large volumes of credit and debit transactions in batches. ACH credit transfers include direct deposit, payroll and vendor payments.

For a checking account, it's the first set of numbers printed on the bottom of your checks, on the left side.

by Joyetter Feagaimaali'i-Luamanu Samoa News Reporter

The Lolo and Lemanu Administration is looking at the future sustainability of a Universal Health Insurance Program for the territory by expanding the Medicaid Program. This is according to Governor Lolo Matalasi Moliga's State of the Territory Address Comprehensive Report in English that was handed out to lawmakers and others at the opening of the Fono yesterday.

The governor delivered his Address in Samoan only, but there was no mention of health, education or Manu'a matters, instead he offered a brief summary of the state of the Territory.

However, the 83-page Comprehensive report, which looks at the last 4 years of the Administration that took office in January 2013, does include review and discussion of health, education and Manu'a matters.

#### MEDICAID — UNIVERSAL HEALTH INSURANCE PROGRAM

The comprehensive report notes the territory's inability to set up an Insurance Exchange has allowed the addition of \$16.5million of the Affordable Care Act funds to expand the Territory's Medicaid program. To Access ACA funds, American Samoa had to expand all of its regular Medicaid funds for allowable expenses.

As a result, ACA funding has significantly improved funding opportunities for the LBJ hospital and all the Community Health Centers

(CHC) under DOH.

There are also efforts currently being made to address the future sustainability of a Universal Health Insurance Program for American Samoa. Medicaid is aggressively exploring the viability of the program before ACA funds expire by 2019.

Therefore, ASG is venturing towards the option of expanding the Medicaid Program as a Universal Health Insurance Plan. "With a universal insurance coverage in place, Medicaid could provide legal residents of American Samoa with affordable health insurance and access to various healthcare providers both local and abroad."

The report says through a verbal agreement with the CMS — the CMS Deputy Administrator and Director of Medicaid and Services — Medicaid has been affirmed to utilize the Territory's Medicaid program to provide universal coverage by including off island coverage for legal residents of American Samoa.

#### MEDICAID — MATCH AND STATUTORY CAP

The report notes that the local Medicaid Office has been working with the Center of Medicaid and Medicare Services to lower the local match from 45% to 30% and increase the federal contribution from 55% to 70% or at the same level as other US States.

# BERCHEST BURGERS

#### HEALTH OF THE ECONOMY

Regarding the health of the local economy, or the Gross Domestic Product (GDP), Lolo said that a 2012 review by the US Departments of Labor and Commerce showed a decline of 4.3%, but when reviewed in 2015, the GDP showed a 1.1% increase, which is a positive sign for the local economy moving forward.

While numbers are positive, there is a concern about the impact of outside issues, which are beyond American Samoa's control — for example, change

(Continued on page 7)

Continued from page 6

Sadly, he said, the administration closed out FY 2014 in the "red" — but regained its financial prowess to close both FY 2015 and FY 2016 in the "black".

In his Samoan address, the governor informed lawmakers that another important financial issue for ASG is the increase in local revenue collections since the administration took the helm of government in 2013.

According to the governor, in the year 2013 local revenues collected totaled \$90.3 million, for the year 2014 a total of \$98.9 million was collected; in the year 2015 a total of \$101.04 million was collected and in the year 2016 — as of Dec. 31st — \$104.4 million has been collected.

Lolo said these numbers show the continued increase every year of local revenue collections, but this is offset by a noticeable increase in the needs of the people as identified by the Fono and the Executive branch. However he said, this is a clear indication that the government of American Samoa is moving forward (in meeting the needs of the people).

[l-r] Senate President Gaoteote Tofau Palaie, Gov. Lolo Matalasi Moliga, House Speaker Savali Talavou Ale and Chief Justice Lealaialoa Michael Kruse during the national anthems of the United States and American Samoa at yesterday's opening of the Fono's joint session to start the First Regular Session of the 35th Legislature. #### Gov. Lolo...

Continued from page 6

in federal laws as well as globally, he said.

Lolo also spoke on the issue of unemployment, which was 20.4% in 2013, but the latest report on Dec. 16, shows unemployment dropped to 10.5%.

According to the governor, employment as well as the economy improved with the entrance of Tri Marine International into the local economy, investing \$70 million in 2013, setting up Samoa Tuna Processors (STP) Inc. He explained that between 2013 and 2016 about 1,500 new jobs were created in American Samoa and many of these jobs were due to Tri Marine's new operation and other major ASG infrastructure projects.

However, STP on Dec. 16 closed indefinitely its cannery operation and laid-off nearly 700 workers. Lolo said the job losses at STP are a "major economic loss" for American Samoa.

Lolo again reiterated that issues surrounding these job losses on our economy are beyond local control. He said American Samoa prays that the federal government makes it easier for American Samoa in the new year so there are new and good changes to the local economy, which is on "shaky ground", because of various reasons, including there are no firm plans released by the incoming Trump Administration for the territories.

Lolo called for patience, saying there are many challenges ahead but not to give up easy. He did note that it's important that everyone works collaborativey — similar to the past four years — to achieve great benefits for the people and government of American Samoa.

# Apple proved a phone can change the world in just 10 years

SAN FRANCISCO (AP) on Google's Pixel phone. Few people realized it at iPhone from Apple's bag of cate, entertain, work and live," technological tricks.

along that changes everything," Jobs declared as he paced across a San Francisco stage. It obviously wasn't an empty boast. We all know now that Jobs' "magical product" has reshaped culture, shaken up industries, put computers in billions of pockets and made it possible to do just about anything with a still unfolding. few taps on a screen. Besides its first iPhone featured a browser for on-the-go web surfing and built-in apps to check email and get directions.

#### GOING MOBILE

similar smartphones that have 1.3 billion PCs. become like phantom limbs for many of us.

our next jobs.

Phones have gotten so smart recently introduced Assistant the iPhone.

"IPhone is an essential part the time, but the world shifted of our customers' lives, and fundamentally a decade ago today more than ever it is redewhen Steve Jobs pulled the first fining the way we communi-Apple's current CEO, Tim "Every once in a while, a Cook, boasted in a retrospective revolutionary product comes that the Cupertino, California, company posted on its website.

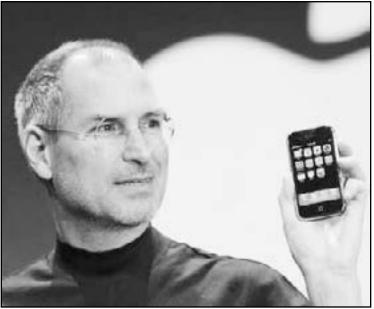

#### **ROADKILL IN ITS WAKE**

The iPhone's revolutionary touch screen doomed the BlackBerry, another once-popular internet-connected phone. Mobile phones and their tablet cousins triggered a downturn in personal computer sales that is

An estimated 219 million then 3.5-inch touch screen, the desktop and laptop computers shipped worldwide last year, down from 264 million in 2007, according to the research firm Gartner Inc. Meanwhile, nearly 1.9 billion mobile phones Apple has sold more than 1 shipped last year, up from 1.15 billion iPhones since its debut, billion in 2007. All told, Gartner spawning millions of mobile estimates about 5 billion mobile applications and prodding other phones are currently in use technology companies to make around the world compared to

The eroding popularity of PCs spurred shake-ups at We use iPhones and their powerful tech companies such copycats to instantly share as Microsoft, Intel, Hewlettvideo and pictures with friends Packard and Dell, none of and family from almost any- which adapted nimbly to the where. We use them to figure mobile world unleashed by out where we are going. We the iPhone. Then-Microsoft's use them to find the best deals CEO Steve Ballmer scoffed while shopping in stores and at Apple's glass-and-metal to pay for stuff at the checkout gadget, telling USA Today stand. We use the phones to a in April 2007 that "there's no hail ride, to tune instruments, to chance that the iPhone is going monitor our health and help find to get any significant market share. No chance."

Microsoft wound up squanthat they even talk back to us dering the \$7.6 billion that it via helpful digital concierges spent to buy phone maker Nokia such as the iPhone's Siri and the in a futile attempt to catch up to

FILE- In this Jan. 9, 2007, file photo, Apple CEO Steve Jobs holds up an iPhone at the MacWorld Conference in San Francisco. Jobs introduced the first iPhone a decade ago. Jobs' "magical product" reshaped culture, shook up industries and made it seem possible to do just about anything with a few taps on a screen while walking around with the equivalent of a computer in our (AP Photo/Paul Sakuma, File)

#### When it comes to being helpful, Ace is the place!

We are a locally owned company, serving American Samoa for over 32 years.

#### We are now hiring for an I.T. ASSISTANT

This person will be expected to work independently with little or no supervision; be well organized and able to interact with staff at all levels, in a fast paced environment. Must be proactive, resourceful and efficient with a high level of professionalism. .

#### MINIMUM REQUIREMENTS include the following:

- Have working knowledge of how to troubleshoot and fix hardware or software issues
- Keep inventory of computer goods and computer necessities
- Honest and detail oriented.
- Ability and willingness to work flexible hours including evenings, weekends and holidays to meet the needs of the business.

#### Reports to: I.T Manager

Consider joining our Ace team where our friendly atmosphere, competitive wages, and a positive team are just a few of the advantages we offer. This is an excellent opportunity for an organized individual who is interested in Retail and Business Administration.

Please pick up an application TODAY from our Customer Service Counter and be part of a captivating team! Or visit our website http://www.neilshomecenter.comand download an application. For this position, please include a cover letter

Tel 699-2482, email info@neilshomecenter.com
